subjects

Abdomen
recurrent pain in young runners (case report), Mar, p 81
spleen injury in sports, assessment with diagnostic imaging, Mar, p 168
spleen injury, sports-related, report of case treated nonoperatively (case report), Sep, p 109
Accidents
falls in older patients, reducing risk through appropriate exercise, Nov, p 146
Addiction
exercise, helping patients overcome underlying problems, May, p 193
Adolescents
acne vulgaris, effective treatment, Aug, p 100
chronic knee pain, recognizing and treating uncommon causes, Mar, p 139; (letter) Jul, p 46
high school wrestlers, determining safe minimum weight, Sep, p 90
high school wrestlers, weight standards and nutrition education, Wisconsin Wrestling Minimum Weight Project, Jul, p 24
hypertension, pharmacologic control, Apr, p 96
hypertension, nonpharmacologic control, Mar, p 120
Aerobic exercise
see Exercise
Aging
see also Older athletes
effects on athletic performance, Jul, p 139
reducing risk of falls and injury, Nov, p 146
AIDS
answers to common questions, patient handout, Feb, p 149
assessing risk among athletes, Feb, p 139
HIV and sports, American Academy of Pediatrics policy statement, May, p 189; (letters) Aug, pp 31, 34, 37
Magic Johnson's announcement of HIV-positive status opens lines of communication, Jan, p 53
Magic Johnson's comeback, evaluating health effects, Nov, p 15
Allergy
nonprescription medications, sidestepping side effects, Jun, p 112
physical—cold urticaria, diagnosis and treatment, prevention (case report), Dec, p 72
summer outdoor allergies, May, p 162
American Academy of Pediatrics
policy statement—HIV in athletic setting, May, p 189; (letters) Aug, pp 31, 34, 37
American College of Sports Medicine
guidelines for team physicians (book), Oct, p 38
new president and president-elect, Aug, p 23
American Medical Society for Sports Medicine
new opportunities for primary care sports medicine physicians (commentary), Apr, p 148
Angina
see Heart disease
Ankle injuries
Achilles tendon rupture, thorough history and physical exam for accurate diagnosis, Sep, p 189
subtalar dislocation in basketball players (case report), Nov, p 59
Arm injuries
midhumerus stress fracture, technetium bone scan to confirm injury (case report), Feb, p 119; (letter) Jun, p 29
Arthritis
osteoarthritis of the knee, weight loss helps prevent onset in older women, Aug, p 22
Asthma
chronic, corticosteroids in management, Jun, p 44
exercise-induced, effects, management, Mar, p 158
Athletic care
"athlete's heart," recognizing healthy adaptations to exercise, Aug, p 86
medical support model for bicycle stage racing, Mar, p 109
nutritional status of high school wrestlers, Wisconsin Wrestling Minimum Weight Project, Jul, p 24
sculpting athletic physiques with liposuction and calf and pectoral implants, Feb, p 153

Back injuries
sciatica, characteristics, treatment options, Jan, p 126; (letter) May, p 56
Backpacking
treatment and prevention of potential problems, Apr, p 183
Baseball injuries
head injuries, tips on prevention, Jun, p 44
Basketball
catching another glimpse of Magic Johnson, Dec, p 25
Magic Johnson's comeback, evaluating health effects, Nov, p 15
Basketball injuries
subtalar dislocations, possible contributing factors (case report), Nov, p 59
Bicycling
stage racing, model for medical support, Mar, p 109
Bites and stings
insect repellants, safety issues, Apr, p 57
preventing insect bites, recognizing Lyme disease, May, p 162
tick, detection and treatment of Lyme disease, Apr, p 140
Black athletes
left ventricular hypertrophy and electrocardiogram results, racial differences, Nov, p 15
Blisters
friction, of feet, management, Jan, p 116
Blood
testing for drugs, Olympics, Jul, p 23
Blood diseases
hemophiliac B, David Quinn signs with NY Rangers, Apr, p 58

Boating
seasickness, precipitation factors, preventive medications, Jul, p 35
Body temperature
frostbitten feet, treatment and prevention, Jan, p 67; (letter) Jun, p 28
heatstroke, management, May, p 17; (letter) Sep, p 47
hypothermia, evaluation and treatment, Jan, p 61
keeping cool during hot-weather workouts, Jun, p 167
Bone
experimentally derived from rat muscle, potential use as skeletal replacement parts, Feb, p 44
Boxing
thoughts on banning the sport (letters), Feb, p 29; (letter) Jul, p 46
Brain injury
see also Head injuries
in second impact syndrome, management, Sep, p 55
Burns
road, from in-line skating, risks, Feb, p 32

Carbohydrates
see Nutrition
Cardiovascular disease
see Heart disease
Casts
playing, for hand and wrist injuries, successful protection with silicone rubber cast (technical note), Jul, p 95
Children in sports
chronic knee pain in active adolescents, recognizing and treating uncommon causes, Mar, p 139; (letter) Jul, p 46
concussions, management, "return to play" considerations, Jun, p 66
conditions limiting participation, May, p 143
HIV and sports, American Academy of Pediatrics policy statement, May, p 189; (letters) Aug, pp 31, 34, 37
hypertension, control without drugs, Mar, p 120
hypertension, decisions on pharmacotherapy, Apr, p 96
playground safety, Mar, p 59
preventing serious head injuries in baseball, Jun, p 44
screening for heart murmurs, Oct, p 71
spleen injury, diagnostic imaging techniques, nonsurgical management, Apr, p 126
Cholesterol
benefits of physician counseling on diet and exercise, Jan, p 29
predicting risk of coronary artery disease, Apr, p 61

Clinics and centers
new health club safety standards, May, p 50
physical therapy in health clubs, pros and cons, Jul, p 149
rise of personal trainers, Nov, p 131
Cold
frostbitten feet, treatment and prevention, Jan, p 67; (letter) Jun, p 28
hypothermia, evaluation and treatment, Jan, p 61
risks of cold weather exercise, Jan, p 70
College athletes
case of adenovirus spreading through football training camp, Jan, p 37
Hank Gathers's death increasing physician wariness on participation, Sep, p 34
questionnaire on "burners," underreported injury, Nov, p 47
Compartment syndrome
acute thigh, diagnosis (case report), Nov, p 100
Compliance
with exercise regimen, more important than increasingly intense exercise, Dec, p 123
Concussions
see Head injuries
Conditioning
see Exercise
Contusions
quadriceps, treatment regimens, return-to-play recommendations (technical note), Jul, p 130
Cross-country skiing
see Skiing injuries

Death
sudden, counseling at-risk athletes (commentary), Jun, p 140
sudden, prevention through cardiovascular screening of young athletes, Sep, p 75
Dental care
in facial trauma, immediate injury management, Jul, p 78
mouth guards to prevent injuries, Jul, p 23
Diabetes
adult-onset, reducing risk by exercising, Nov, p 19
metabolic cause of syncope, evaluation and treatment, May, p 123
type II, dietary recommendations, Sep, p 17
Diagnostic imaging
assessing acute knee injuries, Jun, p 91
assessing closed head injuries, Apr, p 37
assessing shoulder pain, Sep, p 150
assessing spleen injury in sports, Mar, p 168
bone scan to confirm midhumerus stress fracture (case report), Feb, p 119
computed tomography in diagnosis of pulmonary contusion and other lung trauma, Feb, p 126
MRI in diagnosis of neurapraxia of cervical spine, Feb, p 83
role of radiographs in diagnosing acromioclavicular injuries, Dec, p 87
in spleen injuries, Apr, p 126
when to use MRI, Aug, p 116
Diarrhea
see also Gastrointestinal function
exercise-related, thorough investigation can reveal unusual causes, Jan, p 94
Diet
see Nutrition
Directories
Sports medicine groups 1992, Jan, p 145
Disabled athletes
new opportunities for sports participation, Nov, p 121
Dislocations
joints, reducing on field or after x-rays, Sep, p 180
Diving

anabolic, dietary supplements presented as alternatives, risks, Mar, p 189
anabolic-androgenic, "steroid clinic" to educate athletes and minimize or stop steroid use, Jun, p 75; (apology) Aug, p 31
Strains
foot, determining injury severity and focusing treatment, Sep, p 137; (correction) Nov, p 44
gastrocnemius, in tennis, management, May, p 203; (letters) Aug, p 37
Strength training
see Weight training
Stress fractures
midhumerus, case report, technetium bone scan to confirm injury (case report), Feb, p 119; (letter) Jun, p 29
tibial or fibular, evaluation and treatment, Jan, p 100
wrist, in gymnast (case report), May, p 115
Stress testing
see Exercise testing
Stretching exercises
see Exercise, Flexibility
Sudden death
see Death
Sunburn
preventing sun damage, May, p 162
synthetic tanning hormone—NDP—protection against effects of sun, Feb, p 44
Surgery
cosmetic, liposuction and calf and pectoral implants, risks, Feb, p 153
diskectomy for sciatica, Jan, p 126; (letter) May, p 56
fasciotomy for compartment syndrome (case report), Nov, p 100
percutaneous transluminal coronary angioplasty, guidelines for exercise rehabilitation, Mar, p 199
reconstruction, anterior cruciate ligament, restoring stability to knee, Jun, p 150
various options for plantar warts, Nov, p 68
Syncope
cardiovascular, evaluation and treatment, guidelines for resuming exercise, Jan, p 81
exertional, case caused by frontal astrocytoma (case report), Mar, p 180
in active patient, determining cause, May, p 123

Team physicians
ACSM's guidelines (book), Oct, p 38
advisability of residents serving as high school team physicians (commentary), Aug, p 108
issue of divided loyalties, Mar, p 62
NBA play-offs and home remedies, Oct, p 53
Television
video workouts, determining safety and appropriateness, Oct, p 19
Tendons
Achilles, rupture, thorough history and physical exam for accurate diagnosis, Sep, p 189
Tennis injuries
elbow, use and misuse of tennis elbow strap, Aug, p 65
gastrocnemius strains, management, May, p 203; (letters) Aug, p 47
Testing procedures
exercise ECG to detect left bundle-branch block, Feb, p 123
Thorax
pain, differential diagnosis to rule out dangerous condition, Sep, p 124
Thumb injuries
see Finger injuries
Toe injuries
see Foot injuries
Training
endurance or ultraendurance athletes, nutritional recommendations, Mar, p 87; (letter) Jul, p 47
endurance, questions about over-distance training (commentary), Aug, p 129; (correction) Nov, p 44
exercise intensity and health benefits, Dec, p 123
important role of breakfast, Jul, p 29
under direction of personal trainer, Nov, p 131

Viral diseases
adenovirus spread through college football training camp, Jan, p 37
Vitamins
see also Nutrition
meeting needs in vegetarian diet, Aug, p 15

Walking
see also Hiking
race, sports benefits, Apr, p 153; (letter) Jul, p 47
safe exercise for patients with chronic obstructive pulmonary disease, May, p 209
Water
versus sports drinks during exercise, Feb, p 33
Water sports
see also individual sport
undersea emergencies, treating barotrauma and the bends, Aug, p 39
waterskiing, barefoot, risks, report of boat driver injury (case report), Jun, p 121; (letter) Nov, p 44
waterskiing, impact on knees (case report), Apr, p 66; (letter) Jul, p 46
Weight reduction
in high school wrestlers, determining safe minimum weight, Sep, p 90
in older overweight women, helps prevent onset of knee osteoarthritis, Aug, p 22
weight standards and nutrition education for high school wrestling, Jul, p 24
women's concerns, Mar, p 41
Weight training
guidelines for successful program, dietary recommendations, Mar, p 233
Wilderness
emergencies, what you need to know (commentary), Oct, p 159
Winter sports
risk of frostbitten feet, treatment and prevention, Jan, p 67; (letter) Jun, p 28
risks of cold weather exercise, Jan, p 70
risks of hypothermia, Jan, p 61
snowboarding, common injuries, study of 415 injured patients to determine injury patterns, Dec, p 114
Wrestling
determining safe minimum weight, Sep, p 90
weight standards and nutrition education for high school wrestlers, Jul, p 24
Wrestling injuries
herpes gladiatorum, tips for prevention, Jan, p 56
herpes simplex, how to prevent its spread, Oct, p 116
Wrist injuries
protection with silicone rubber playing cast (technical note), Jul, p 95
stress fracture of distal radius in gymnast (case report), May, p 115
